

PHISHING TRAINING PROGRAM

Module ~12 mins
Video Only ~ 8 mins

This course is designed to raise awareness about phishing and inform trainees about the dangers. It teaches the warning signs to help trainees better spot phishing attempts, and it explains what people should do if they have any suspicions about an email or phone call.

The full-length course takes approximately **12 minutes** to complete and contains a series of **3 short videos** interspersed with **8 interactive quiz questions**. This course can stand alone or can be snapped together with other topic segments.

The full-length course is divided into three parts:

(1) What Is Phishing?

Discusses the dangers and types of phishing, including spear phishing and vishing (phishing via phone).

(2) How Do You Spot a Phishing Attempt?

Discusses the various warning signs to look out for.

(3) What Should You Do When Things Seem Phishy?

Discusses what people should do when they have questions or suspicions.

Condensed Version

Module ~ 6 mins

Video Only ~ 4 mins

We also offer a condensed version that takes about **6 minutes** to complete. It contains 4 interactive quiz questions.

ABOUT TEACHPRIVACY

The TeachPrivacy Advantage

Expertise

Our training is created by Professor **Daniel Solove**, an internationally-known expert in privacy and security.

Topical

We cover **more than 50 topics**, including HIPAA, FERPA, GLBA, phishing, passwords, portable devices, social media, and much more.

Interactive

SCORM-complaint modules have interactive quizzes and activities.

Engaging

Your workforce will *want* to take our training – and they'll remember it.

Short and Modular

We have comprehensive courses and short individual modules on particular topics.

Customizable

We can customize anything

“In short, easily understood sessions, Professor Solove personally explains the concepts of information security and privacy in plain language. The excellent content combined with Solove’s well-earned reputation make the TeachPrivacy series an essential part of an effective information security awareness program in any organization.”

– Dennis Devlin, CISO, CPO and Senior VP of Privacy Practice, Savanture

TeachPrivacy was founded by Professor **Daniel J. Solove**, the John Marshall Harlan Research Professor of Law at the George Washington University Law School. He is also a Senior Policy Advisor at the law firm of Hogan Lovells. One of the world’s leading experts in privacy law, Solove has authored nine books and more than fifty articles. He is the lead author of the most widely-used textbook on information privacy law. He has given lectures around the world, testified before Congress, spoken at the Department of Homeland Security, U.S. Dep’t of Education, FCC, FTC, the Library of Congress, and countless universities.

Professor Solove has been interviewed and featured in several hundred media broadcasts and articles, including the New York Times, Wall Street Journal, Washington Post, Chicago Tribune, USA Today, AP, Time, Reader’s Digest, ABC, CBS, NBC, CNN, and NPR.
